Nova Scotia Fishery

1997

Preface

The Nova Scotia Fishery Statistical Overview provides the most recent available (November 1998) analysis of the Nova Scotia fishing industry for 1997.

The various aspects of the fishery are arranged into three broad areas: Economic Impact, Landings and Values and Exports. Maps and graphs are included to enhance and clarify the statistics.

The overview has been prepared by:
Marketing Division
Nova Scotia Department of Fisheries and Aquaculture. Sources of information include Statistics Canada, Department of Fisheries and Oceans (Halifax, Moncton and Ottawa) and the Nova Scotia Department of Finance.

Nova Scotia Fishery

1997
Economic Impact

Gross Domestic Product

Gross Domestic Product is the total money value of all final goods and services produced in an economy over a one year period. "Double counting" is removed.

For example, the market value of seafood products in Nova Scotia was approximately $911 million in 1997. In determining G.D.P. of the fisheries sector, such things as the cost of packaging material (assume around $20 million) is subtracted from the market value. This $20 million is then added to the packing sector. This is done for all goods and services purchased for the fishing industry.

In 1997, the fishing industry again placed first among the primary resource sectors. Employment figures associated with G.D.P. show fisheries slightly decreased. The profile of Nova Scotia Fishery employment, as provided by the Statistics Canada Labour Force Survey, shows a slight employment increase in the harvesting sector, but a decline in the processing sector.

Nova Scotia Employment Profile, 1997

Employment		
Fishermen (Gulf and Scotia-Fundy regions combined)		
	full-time*	7,500
	part-time*	6,101
	total	**13,601**
Plant Workers		5,600
Licensed Aquaculturists		367
Registered Fish	Processing Establishments	297

Comparative Review: Fishers Employed in Harvesting Sector: 1989-1997		
1989		10,300
1990		9,100
1991		9,800
1992		8,900
1993		8,100
1994		8,400
1995		7,400
1996		7,500
1997		7,500

Comparative Review of Plant Workers: 1989-1997		
1989		7,300
1990		5,600
1991		5,800
1992		6,100
1993		5,600
1994		5,800
1995		5,850
1996		4,800
1997		5,600

***Full-time:** Fished for the required period of time for the previous two years without other employment during that period and was registered as a commercial fisherman (includes Bonafide category)

***Part-time:** All other registered fishermen not meeting full-time definition

Nova Scotia Fishery

1997

Landings and Values

In 1997, although Nova Scotia fish landings showed a slight decrease in metric tonnes, the value of landings has shown a 9% increase from 1996.

The value of the aquaculture industry increased this year to $15.2 million.

Preliminary landing figures for Canada indicate that Nova Scotia has the highest landings in both metric tonnes and dollar value. Lobster ranks #1 in value with having landed $206 million; Scallops rank second, at $66 million.

Please keep in mind that these landings and values are preliminary and can be subject to change.

Landed Values for Nova Scotia 1996-97

Species	Total MT (1996)	Total ($000) (1996)	Total MT (1997)	Total ($000) (1997)
GROUNDFISH

Nova Scotia Fishery

1997

Exports

Fish exports in 1997 accounted for 26.2% of all Nova Scotia exports and is still the largest of all product groups.

In 1997, Nova Scotia exported worldwide to 64 countries.

The Nova Scotia fishery exports are ranked by country and products in this chapter.

Nova Scotia Fish Exports 1997

(By Process)

SPECIES	VALUE (Actual Value)	QUANTITY (Metric Tonnes)
Groundfish

Nova Scotia Fishery

1997

Profile by County

The profile by county section reviews landings in summary by species group, followed by landings in county detail. In addition, aquaculture statistics and vessel licenses by county for Nova Scotia.

Landings and Landed Value by County and Species Groups
1997 vs. 1996
